

THE BEST RESOURCE FOR YOUR NURSING STUDENTS

BENEFIT	FEATURE	REAL-LIFE USES
<i>COST EFFECTIVE</i>	Your teachers <i>and</i> students will benefit. Provide e-access to heavy texts from anywhere.	Enliven anatomy classes with interactive animations of how body systems work or use a disease overview to educate a patient.
<i>CONVENIENT</i>	Gather many helpful tools in one resource.	Direct students to searchable sample care plans or a searchable drug handbook.
<i>EFFICIENT</i>	Find information fast: do the tedious search through five textbooks less often.	Access illustrated disease, condition and medical-test overviews from Gale and Delmar with one search.
<i>AUTHORITATIVE</i>	Search the <i>2008 PDR Drug Handbook for Nurses</i> by generic or brand name.	Helps your students learn both the generic and brand names of the drugs they pass most often.
<i>CONTEXT</i>	Search results sorted into tabs that follow the steps of the nursing process.	Your students can trace the nursing process in action <i>before</i> they get to their clinical.
<i>GREAT VALUE</i>	Ideal for brushing up on basic nursing fundamentals and diseases.	Ideal preparation tool for your state's Board of Nursing NCLEX-PN and NCLEX-RN exams.
<i>PRACTICAL</i>	The Nursing Toolbox is home to many quick-reference documents.	A nursing student who only speaks English needs to treat a Spanish-only speaking patient. The student can pull the list of common phrases, translated between English and Spanish, to accurately communicate with the patient.

Nursing Resource Center provides your students with more than nursing journals.
